DASI, LLC External Providers- Vendors & Partners:

As an ASA-100 and AS9120-certified organization, DASI LLC is required to flow down the following requirements to all external providers.

ASA-100 and AS9120B Clause: 8.4.3 Information for External Providers

DASI, LLC ensures the adequacy of all requirements prior to communicating them to external providers- Vendors & Partners. DASI, LLC communicate to external providers the following, as applicable:

By accepting this order, the external provider agrees to comply with the following, as applicable:

- Supply all specified processes, products, and services with relevant technical data (e.g., drawings, specs, instructions).
- Obtain DASI LLC's approval for products, services, processes, methods, equipment, and release of deliverables.
- Ensure personnel competence and qualifications.
- Follow defined methods for communication and interaction with DASI LLC.
- Allow performance monitoring and control by DASI LLC.
- Allow verification or validation activities by DASI LLC or its customers at your premises.
- Conduct required testing, inspection, and verification.
- Use statistical techniques as specified for product acceptance.
- Implement a quality management system, use approved sources, and notify DASI LLC of:
  - Nonconformities and disposition requests
  - Changes to processes, products, services, providers, or manufacturing location
- Prevent the use of counterfeit or unapproved parts (see 8.1.4 and 8.1.5).
- Flow down all applicable requirements to your own external providers.
- Provide certificates of conformity or test reports, as required.
- Retain and dispose of documented information per specified requirements.
- Grant right of access to DASI LLC, its customers, and regulatory authorities.
- Ensure personnel are aware of their impact on conformity, safety, and ethical behavior.
- In addition, the distributor of surplus parts should have a procurement system which assures that:
  - A part known to have been subjected to conditions of extreme stress, heat or environment are so identified
  - All Airworthiness Directives (AD's) that are represented as having been accomplished are documented. Certification of compliance shall specify AD number, AD amendment number, date, and method of compliance, i.e.," AD xx-xx-xx terminated (date). Replaced shaft seal with P/N_____ shaft seal (signature)"
  - items identified as overhauled, repaired or modified, i.e., inspected and/or tested have the appropriate signed and dated documentation to substantiate the condition of the part.
